Reading

WORK EXPERIENCE

Technology/Consulting Co-op, Capco
Toronto, Ontario
September 2016 – Present

- Using JavaScript with Angular, HTML, and CSS to develop features for a banking web app
- Working in an Agile development environment

**Mobile App Designer/Developer (Co-op), Defense Research and Development
Canada**
Toronto, Ontario
January 2016 – April 2016

- Created designs for a static, text-based app using Adobe Photoshop keeping usability and user-centered design in mind
- Implemented features on a cross-platform app (used Cordova) using JavaScript, Ember.js, jQuery, HTML, and CSS
- Attended a training session to learn about facilitating usability testing

Software Tester (Co-op), CryptoMill Technologies Inc.
Toronto, Ontario
May 2014 – August 2014

- Created and executed test cases for mobile and desktop apps; improved detail orientation
- Participated in marketing and UI/UX discussions to ensure the app was user-friendly
- Worked closely with developers and program managers throughout the app development cycle

PROJECTS/ASSIGNMENTS

Hack the North 2016 (*JavaScript, HTML, CSS, Angular, Firebase*)
Built a web app that allows elementary school teachers to award points and achievements to their students. Students can also access their account and redeem rewards

RateMyRoof (*JavaScript, HTML, CSS, Materialize*)
Working on a website that allows users to rate, review, and search properties in the Waterloo region

UW Monopoly (*C++*)
Wrote a text-based Monopoly game for a final project

Daily Activity Tracking (*JavaScript, HTML, CSS*)
Created a User-friendly Daily Activity Tracking web app for a course assignment

UW Pin (*UWaterloo API, Google Maps API, JavaScript, HTML, CSS, JSON*)
Created a simple web app to pin UW buildings on a map for a course assignment
